DETAILED ACTION

Claim Rejections - 35 USC § 102

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 15, 20 and 22 are rejected under 35 U.S.C. 102(b) as being anticipated by Otoshi et al. (JP-362158756A). The intended use of the instantly claimed composition is noted, however, the intended use does not patentably distinguish said claimed composition over the prior art.

Otoshi et al. teaches a polymer (A) containing the following polymer units (a') and the following polymer units (b'), and an aqueous medium (B).

Polymer units (a'): Polymer units derived from an unsaturated ester containing a polyfluoroalkyl group (abstract); and Polymer units (b'): Polymer units derived from a compound containing a silicon atom and an unsaturated group (abstract). It is inherent that the polymer of Otoshi et al. contains a water of hydration.

Since the composition of Otoshi et al. is the same as the applicant's, it is inherent that the softening point of Polymer (A) is at least 40C and less than 150C. For the same reason, it is also inherent that composition of Otoshi et al. has a surface tension of 10 to 25 mN/m.

Allowable Subject Matter

Claims 18 and 26 are allowed.

Claims 16-17, 19, 21, 23-25 and 27-34 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

The prior art of record that is cited as of interest is presented on the form-892.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kiley Stoner whose telephone number is (703) 305-0723. The examiner can normally be reached on Monday-Thursday (7:30 a.m. to 6:00 p.m.).
